Mikhail Ponomarev

Web Developer / SAP Cloud Web Developer Riga, Latvia T: +371 256-01-057 E: tiosteel@gmail.com LinkedIn: linkedin.com/in/mikhail-ponomarev-964108103 Relocation Status: Blue Card in Latvia (since 2019), permanent residence anticipated 2024.

Professional Summary

A results-oriented Web Developer with over a decade of experience in designing, developing, and deploying robust web applications. My career began with a strong foundation in PHP-based backend development (Yii, Laravel, Bitrix), evolving into specialized expertise within the SAP ecosystem. This includes extensive experience with SAPUI5/Fiori frontend development and, for the past 2.5+ years, a primary focus on full-stack SAP Business Technology Platform (BTP) solutions leveraging Node.js and the CAP Framework. I have a proven track record of successfully leading development teams, managing project lifecycles, and delivering high-impact solutions for enterprise clients in retail and ERP sectors. I am actively seeking to integrate modern frontend frameworks such as React, Vue, or Svelte (ideally with Server-Side Rendering) into my skillset, complementing my strong SAP BTP backend expertise.

Technical Skills

- **Programming Languages:** JavaScript (ES6+), Node.js, PHP, SQL, HTML5, CSS3, VBA, (ABAP - Foundational)
- **Frameworks & Libraries:**
  - **SAP:** CAP Framework, SAPUI5, Fiori Elements, SAP Cloud SDK
  - **JavaScript/Node.js:** Express.js (experience with)
  - **PHP:** Yii, Laravel, Bitrix, OpenCart, Joomla
- **SAP Technologies:**
  - SAP Business Technology Platform (BTP) / SAP Cloud Platform (SCP)
  - SAP HANA (Cloud & On-Premise)
  - SAP Event Mesh
  - OData Services, CDS Views
- **Databases & Data Platforms:**
  - SAP HANA
  - MySQL, MS SQL
  - Redis
  - Kafka
- **Tools & DevOps:**
  - Docker
  - Jenkins (with SAP Piper add-on)

- Git / Version Control
- Testing: Jest (Unit/Integration), Newman (API), JMeter (Performance), OPA5 (UI)
- Postman
- **Methodologies:** Agile (experience with)
- **Currently Exploring/Learning:** React, Vue, Svelte, TypeScript, GraphQL, PostgreSQL, Angular, Aurelia

---

Professional Experience

Accenture, Riga, Latvia Senior Developer / Team Lead *Sep 2019 – Present (ACTION: Please confirm if "Present" or provide end date like "May 2022" if applicable)*

- **Team Leadership (Jan 2021 - [End Date/Present]):**
  - Led a development team for a major German retail company, overseeing the design, development, and deployment of an SAPUI5 application for manual cleansing of migration data. Role involved project planning, task delegation, code reviews, and stakeholder communication.
  - Mentored junior developers and fostered a collaborative team environment.
- **Senior Node.js Developer (SAP BTP Multi-Tenant Project for ERP Software Company):**
  - Architected and served as the lead developer for a complex multi-tenant SAP BTP application.
  - Utilized Node.js and the SAP CAP Framework for backend services, with SAP HANA as the primary database.
  - Integrated SAP Event Mesh for robust asynchronous messaging between microservices.
  - Developed SAPUI5 components for the application's user interface.
  - Established and maintained comprehensive testing strategies: Jest for unit and integration tests, Newman for API testing, JMeter for performance testing, and OPA5 for UI automation.
  - Configured and managed CI/CD pipelines using Jenkins with SAP Piper add-ons for automated builds, testing, and deployments to SAP BTP.
- **SAPUI5 Developer (ERP Software Company - 3 months initial project):**
  - Independently developed key frontend modules and applications for an ERP software company using SAPUI5 and Fiori Elements, focusing on delivering intuitive and responsive user experiences.
- **Additional Responsibilities:**
  - Contributed to the development of cloud solutions for SAP in the Utilities industry sector.
  - Actively participated in agile development ceremonies, including sprint planning, daily stand-ups, and retrospectives.

SAP C.I.S, Sverdlovsk Region, Russian Federation IT Consultant *Jan 2015 – July 2019*

- Led frontend JavaScript development efforts based on SAPUI5 and Fiori Elements for various enterprise applications.
- Acted as a liaison and team lead, defining tasks and coordinating efforts between backend ABAP developers and the frontend development team.
- Designed, developed, and implemented OData Services on top of SAP CDS Views to expose backend business logic and data to UI5 applications.
- Developed custom solutions using Node.js for specific backend tasks and integrations within the SAP landscape.

- Created VBA scripts and applications for MS Office automation and data manipulation tasks related to SAP projects.
- Gained hands-on experience with SAP Cloud Platform (SCP) based development and services.

PHP Developer (Various Web Studios including Optima-Promo, Itgro, Webmotor), Sverdlovsk Region, Russian Federation PHP Developer *March 2012 – Dec 2013*

- **Optima-Promo (July 2013 - Dec 2013):**
  - Worked as a web developer in the SEO optimization department, responsible for fixing and upgrading customer websites on various PHP platforms (Bitrix, OpenCart, Yii).
  - Developed simple websites and implemented SEO-related technical improvements.
- **Itgro (Jan 2013 - June 2013):**
  - Primary responsibility was the development and support of the International Basic Sciences Knowledge Contest platform (urfodu.ru).
  - Most tasks involved heavy SQL report generation, performance optimization, and custom module development on a Bitrix-based platform with significant custom additions.
- **Webmotor (Sep 2012 - Dec 2012):**
  - Junior PHP developer role, contributing to various client web projects.
  - General responsibilities included creating, fixing, and upgrading customer websites on platforms like Joomla.
  - Developed parsers for web-shops and search engines.

Education

Ural State University named after A.M.Gorky, Sverdlovsk Region, Russian Federation Bachelor's Degree in Information Technology *Sep 2010 – June 2014*

Certifications

- **ABAP for SAP HANA (Edition 2014)** - SAP SE

Languages

- **Russian:** Native
- **English:** Professional Working Proficiency (Approximately B2 Level)
